**This is the maximum size allowed for your poster**

You **must** follow these directions – larger posters will not be displayed at the meeting!

2. Velcro for attaching your poster to the board will be available at the meeting.
3. Posters are usually more attractive when mounted onto a single background rather than being mounted on the board as several separate sheets.
4. The Organisers will provide the poster board numbers
5. You are invited to bring copies of your poster on A4 sheets to hand out to interested delegates.

### Science Posters design service

If you only have access to limited illustration or printing resources you may wish to consider using a design firm: Scienceposters, a specialised design business offering clinical and scientific graphic design services, design and print conference posters at a very competitive rate.

Science Posters was used by presenters at the 2006 BRS-BORS Southampton meeting, who commented as follows:

- *SciencePosters were brilliant. Excellent formatting, poster design and punctual delivery. I'd gladly use them again.*

- *Scienceposters provided an extremely prompt and efficient service and worked hard to produce the desired product. I would have no hesitation in using them again and have already recommended them to colleagues.*
- *I did use Scienceposters services. I think it is the best ever service I can think of. It was extremely fast and at very short notice. My poster would not have been possible without them.*
